

HP LASERJET PRINT CARTRIDGE RETURN AND RECYCLING JUST GOT EASIER

Return used Original HP print cartridges to HP authorized reseller collection providers for recycling with HP Planet Partners.

- HP print cartridges returned to HP Planet Partners through your reseller go through a multiphase recycling process. They are reduced to raw materials, which can then be used to make new metal and plastic products such as HP cartridges and other everyday products. Any remaining material is disposed of or handled responsibly through energy recovery. HP strives to never refill, resell or send print cartridges to a landfill.
- The HP Planet Partners return and recycling program offers free and convenient recycling of HP print cartridges. Since 1991, more than 178 million HP LaserJet print cartridges have been returned and recycled worldwide. HP has, to date, recycled over 2 billion cumulative pounds of electronics and HP print cartridges.¹
- Through design innovation, HP ink and LaserJet print cartridges have been engineered to use recycled plastic from HP's recycling process and still meet demanding standards for quality and reliability. In 2010, HP used 19.6 million pounds of recycled plastic as raw material in the manufacturing of Original HP print cartridges, keeping 490 tractor-trailer loads of plastic from going into landfills.²

Program benefits:

- Free and easy return and recycling solution for empty Original HP LaserJet cartridges—for customers who are not interested in participating in the HP PurchasEdge program

Qualified products:

- Qualified cartridges:
 - Original HP LaserJet cartridge
- Non-qualified cartridges:
 - Non-HP brand
 - Refilled, remanufactured, relabeled

Talk to your reseller today to start recycling HP LaserJet print cartridges.
